[eriksvetlik.github.io/portfolio](https://eriksvetlik.github.io/portfolio)

Self-driven full-stack web developer with two years of experience developing applications in a professional and educational environment. Recently earned a certificate in web development from the Web Development Boot Camp at UT Austin. Passionate about learning new code and leveraging background in customer support to provide unique perspectives on how users interact with applications.

## SKILLS

HTML | CSS | Bootstrap | JavaScript | jQuery | Node.js | React | Handlebars.js | REST APIs | ASP | VBScript | SQL | MySQL | MongoDB

## EXPERIENCE

### Paramount Acceptance | Front End Developer

Apr 2022 - Present | Remote

- Work with both front and back end teams to develop solutions and produce code that contributes to the goals for company web applications.
- Help manage all web properties and presence, and responsible for working cross-functionally to assemble, develop, and maintain the site's content, services, functionality, and quality.
- Actively manage the continual development of features for the web applications while maintaining a consistent look and feel throughout.

### IMPAK Solutions | Assistant Full-Stack Developer

Jan 2020 - Dec 2021 | Houston, TX

- Developed and maintained applications in a full-stack environment using HTML, CSS, JavaScript, jQuery, ASP, and SQL.
- Wrote SQL queries to modify application reports to meet customer requirements.
- Updated internal applications to a modern interface with the Bootstrap CSS framework.

### IMPAK Solutions | Client Support Specialist

Nov 2017 - Dec 2019 | Houston, TX

- Managed client requests/feedback and project plans while working with Programming to perform quality assurance tests.

### Reynolds & Reynolds | Product Analyst

Oct 2015 - Nov 2017 | Houston, TX

- Monitored and tested programming requests/projects for correct functionality and fulfillment of goals.

### **Reynolds & Reynolds | Software Implementation Consultant**

May 2014 - Oct 2015 | Houston, TX

- Managed the set-up and training of telephony products.
