Self-driven full-stack web developer with two years of experience developing applications in a professional and educational environment. Recently earned a certificate in web development from the Web Development Boot Camp at UT Austin. Passionate about learning new code and leveraging background in customer support to provide unique perspectives on how users interact with applications.

SKILLS

HTML | CSS | Bootstrap | JavaScript | jQuery | Node.js | React | Handlebars.js | ASP | VBScript | SQL | MySQL | MongoDB

EXPERIENCE

IMPAK Solutions | Assistant Full-Stack Developer
Jan 2020 - Dec 2021 | Houston, TX

- Developed and maintained applications in a full-stack environment using HTML, CSS, JavaScript, ASP, and SQL.
- Identified and fixed bugs/errors in applications with an average turnaround of less than one business day.
- Wrote SQL queries to modify application reports to meet customer requirements.
- Updated internal applications to a modern interface with the Bootstrap CSS framework.
- Responsible for daily and weekly backups of software applications and client data using FTP software.

IMPAK Solutions | Client Support Specialist
Nov 2017 - Dec 2019 | Houston, TX

- Managed client requests/feedback and project plans while working with Programming to perform quality assurance tests.

Reynolds & Reynolds | Product Analyst
Oct 2015 - Nov 2017 | Houston, TX

- Monitored and tested programming requests/projects for correct functionality and fulfillment of goals.

Reynolds & Reynolds | Software Implementation Consultant
May 2014 - Oct 2015 | Houston, TX

- Managed the set-up and training of telephony products.
